

Item No. 2

Electrical component type: Transformer

Plant ID No.: GYT

Current Location: Rock Crusher

Brand Name: West

Serial Number: PBV 8651-01

Nameplate information:

Fluid type: polychlorinated biphenyls

Gallons dielectric: 210

kVa: 750

Date installed: 1972

PCB documentation: This transformer underwent retrofill activities in 1988 and 1989 under contract with ENSR. Documents associated with retrofill concentrations and reclassification dated October 11, 1989 and October 31, 1989 follow this data sheet. The final lab reclassification indicates a PCB concentration in the dielectric a 1.99 ppm.
